Evaluation Plan

Instructions:

All applicants **must** complete the Ilagiiktunut Evaluation Plan using the form provided, and must submit it as part of the Ilagiiktunut Fund Application Package. If more space is required, applicants may add columns to the table as required, or may use additional tables. Supplementary information may be attached as an Appendix.

<u>Evaluation Plan Description:</u> Describe the approach that will be taken to monitor and evaluate the program or initiative. What outputs or outcomes are being evaluated? How will they measured? What information sources will be used?

<u>Detailed Evaluation Strategy:</u> List each of the elements of the evaluation strategy, including targets or goals for each objective, and the timeframe in which they will be evaluated. For example, some outputs may be measured only once (i.e. number of participants), while outcomes may be measured over a longer period of time.

Notes:

- 1. For the purposes of evaluation, *outputs* typically refer to the actions that were performed (what was done) while *outcomes* refer to the results (the difference made by the outputs). Level II and Level III projects are expected to identify and measure outcomes as well as outputs.
- 2. Applicants are encouraged to incorporate Traditional Knowledge and Inuit Qaujimajatuqangit into evaluation plans as appropriate.
